Lee,

This is mostly FYI re: the Region's proposed forward plan re: Oregon's waters and the substantive contents of the list.

Thanks,

Steve

Hi, Steve. Thanks for the recommendation. Wednesday's briefing on the Oregon list and OA is for HQ, Dan O is supportive of moving forward with the Oregon partial approval and partial disapproval, proposing to list those waters EPA's review showed are impaired as soon as possible. And on the OA issue, **Attorney Client / Deliberative Process / Ex. 5** **Attorney Client / Deliberative Process / Ex. 5** So no more is needed from Dan to prepare the public notice. He may be on the call on Wednesday not sure.

Steve and Tom, I hope you both got the invite for the HQ meeting. I'll forward it just in case.

On the document itself, my only other suggestion would be to include – somewhere, maybe an attachment or maybe in the text – the verbatim text of the applicable narrative WQS or WQSs (if there is more than one).

Thanks,

Steve

Hi, Steve. Just wanting to keep you in the loop on information as its developing. Not sure when the Dan briefing is happening but will let you know when I know. Per my earlier email, maybe today's discussion with Dan is just on the NOI and not the OA issue.

Hi all,

I slightly revised the briefing doc we used with Dan several months ago, **Deliberative Process / Ex. 5**

**Deliberative Process / Ex. 5**

Please take a look, if you have time, to see if it needs further revision. Keep in mind, I will be sending the slides Cheryl just recently generated, and the doc we used last week with NOAA, as well. I have meetings until 2pm and then have to leave today, and am offsite all day on Monday. If you can get your revisions back to me by 5pm on Monday, I will send things out Monday before I go home. I'll work on developing an agenda on Tuesday. I expect that I'll give some background on where we're at with the list and our conversations with NOAA, etc. Cheryl, if you could then explain your analysis and graphs, that would be great, and Rochelle—if you could add in any other data/scientific info they should have, that would be lovely. Lori—I think then a summary of your thinking with Steve Sweeney and the legal pros and cons would be good. Thanks everyone.
